Teaching about American Federal Democracy-Temple University. Center for the Study of Federalism 1986 Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

Business Enterprises: Legal Structures, Governance, and Policy-Douglas M. Branson 2012-08-06 This book undertakes a traditional, and inclusive, approach to the law of business organizations. The volume includes materials many books now on the market omit, such as agency and unincorporated business associations, while at the same time maintaining a wide breadth of coverage. As such, the book permits professors to emphasize closely held and other non-public companies while at the same time offering the basics on public company law and practice. Along these lines, the book includes materials on securities offerings, registration, exemptions from registration, and lawyers' responsibilities under the securities laws. Features that make this book a strong teaching tool and a strong learning tool include: • Chapter introductions that summarize and highlight the overall and contextual importance of chapter contents (rather than merely list and categorize the parts of the chapter); • Basic corporate finance nomenclature and other information necessary to an understanding of transactional business law, including individual chapters on basic corporate finance, corporate changes and change of control transactions; • Materials allowing for a comparison of laws and practices in other countries with those of the United States in key areas of study; and • Well-selected notes and problems that permit the integration of concepts and foster application skills at key junctures. This single text allows for coverage of law, underlying theory and policy, and practice skills. In one volume, the book contains material sufficient to educate a young lawyer to function in general business law practice. The emphasis has been on creating a teaching resource that is comprehensive in the view of the five experienced business law teacher-practitioner authors. This eBook features links to Lexis Advance for further legal research options.

Stephenson's Rocket Manual-Gibbon Richard 2016-06-15 Stephenson's Rocket is one of the most famous steam locomotives of all time. Designed by Robert Stephenson, with input from this father, George, Rocket set the fundamental design template for almost all the locomotives that followed it. The original locomotive is owned by the National Railway Museum, and is currently on display at the Science Museum in London. Two working replicas of the locomotive have been built. The most advanced steam engine of its time, Rocket was built in 1829 for the Rainhill Trials held by the Liverpool & Manchester Railway (LMR) in order to evaluate locomotive designs and choose the best one for use on this new railway. Five locomotives took part in the trials and Rocket was chosen as the winning design. Published in association with the Science Museum, this manual, illustrated with a wealth of photographs and technical drawings, provides a fascinating insight into the design, construction and operation of Rocket.

Graphic Reproduction-Jenell Johnson 2018-05-23 This comics anthology delves deeply into the messy and often taboo subject of human reproduction. Featuring work by luminaries such as Carol Tyler, Alison Bechdel, and Joyce Farmer, Graphic Reproduction is an illustrated challenge to dominant cultural narratives about conception, pregnancy, and childbirth. The comics here expose the contradictions, complexities, and confluences around diverse individual experiences of the entire reproductive process, from trying to conceive to child loss and childbirth. Jenell Johnson's introduction situates comics about reproduction within the growing field of graphic medicine and reveals how they provide a discursive forum in which concepts can be explored and presented as uncertainties rather than as part of a prescribed or expected narrative. Through comics such as Lyn Chevley's groundbreaking "Abortion Eve," Bethany Doane's "Pushing Back: A Home Birth Story," Leah Hayes's "Not Funny Ha-Ha," and "Losing Thomas & Ella: A Father's Story," by Marcus B. Weaver-Hightower, the collection explores a myriad of reproductive experiences and perspectives. The result is a provocative, multifaceted portrait of one of the most basic and complicated of all human experiences, one that can be hilarious and heartbreaking. Featuring work by well-known comics artists as well as exciting new voices, this incisive collection is an important and timely resource for understanding how reproduction intersects with sociocultural issues. The afterword and a section of discussion exercises and questions make it a perfect teaching tool.

Once a Marine-Nick Popaditch 2008-09-29 FINALIST FOR AUTOBIOGRAPHY / MEMOIRS, 2009, THE INDIE BOOK AWARDS WINNER, 2009, MILITARY-WRITERS BOOK OF THE YEAR May 6, 1986: Nick Popaditch arrives at the Receiving Barracks, Marine Corps Recruit Depot, San Diego, California. April 9, 2003: An AP photographer captures a striking image seen around the world of the Gunny Sergeant smoking a victory cigar in his tank, the haunting statue of Saddam Hussein hovering in the background. Popaditch is immortalized forever as "The Cigar Marine." April 6, 2004: The tanker fights heroically in the battle for Fallujah and suffers grievous head wounds that leave him legally blind and partially deaf. The USMC awards him with a Silver Star for his valor and combat innovation. April 18, 2004: "Gunny Pop" comes home to face the toughest fight of his life-a battle to remain the man and Marine he was. This is the central drama of Nick's inspiring memoir, *Once a Marine: An Iraq War Tank Commander's Inspirational Memoir of Combat, Courage, and Recovery*. Readers in and out of the military will stand up and cheer for this valiant Marine's Marine, a man who embodies everything noble and proud in the Corps' long tradition. Never has modern mechanized combat seemed so immediate and real, or the fight in Iraq seemed so human and worth believing in. At first, Nick fights to get back to where he was in Iraq-in the cupola of an M1A1 main battle tank, leading Marines in combat at the point of the spear. As the seriousness and permanence of his disabilities become more evident, Nick fights to remain in the Corps in any capacity, to help the brothers in arms he so aches to rejoin. Facing the inevitable following a medical retirement, he battles for rightful recognition and compensation for his permanent disabilities. Throughout his harrowing ordeal, Nick fights to maintain his honor and loyalty, waging all these battles the same way-the Marine way-because anything less would be a betrayal of all he holds dear. The real triumph in *Once a Marine* is its previously untold, behind-the-scenes tale of the day-to-day life of a career Marine noncommissioned staff officer. In most books and movies, a "Gunny" is little more than a cardboard character. Nick's portrayal is a man complete: a husband and father, as well as a warrior and a molder of young warriors. He reveals himself completely, something no memoirist in his position has ever done before. This includes our very personal introduction to his wife April, whose heroics in the story equal Nick's, together with dozens of others who, as Sgt. Popaditch writes, gave so much, so selflessly and freely, to him. Like the man himself, *Once a Marine* is full of gratitude and refreshingly free of false bravado and braggadocio. All Americans, of all political persuasions, have a duty to meet this courageous and admirable

fighting man, an exemplar of all our military men and women who give so much out of love for their nation. Meeting Gunny Sergeant Popaditch through the pages of his inspirational memoir offers up new reasons to be proud and shoulder our own responsibilities as Americans. Once a Marine will instantly take its place among outstanding combat classics. And once you read this remarkable and uplifting book, *The Marine's Hymn* will never sound the same.

The Soul of Success-Nick Nanton, Esq. 2015-07-24 Success is a concept universally embraced but individually defined. Our definition of success truly depends on our individual goals. For example, your goal might be monetary, a physical accomplishment or a moral achievement. To flesh out this topic, we are adding a few comments made by famous and successful people in diverse fields - similar and familiar concepts to those put forward by the Premier Experts(r) in this book. Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed. Booker T. Washington You can succeed best and quickest by helping others to succeed. Napoleon Hill The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather a lack in will. Vince Lombardi Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude. Thomas Jefferson In our New Economy, the acquisition of success has been reformatted somewhat by business and industry even though its principles remain the same. The Electronic Revolution has changed the economic landscape as much as the Industrial Revolution. We now live more and

more in "real time" and expect others to do the same. This era of instant communication has changed the ways in which we communicate and expect responses. To succeed today, it is useful, perhaps essential, to have a mentor. Errors will be made, but to minimize them will speed up your journey. The Premier Experts(r) in this book will help you along the way. They have been there and know the road. Who would be better to guide you? They will illuminate your path to The Soul Of Success..
